A presentation of the  
*Dave & Doris Luening Pond Sustainability Series*

## Addressing Our Coastal Pond Challenges: New Insights Into Nitrogen Sources and Potential Solutions

Our ponds are struggling! How do we fix them? Dr. Javier Lloret of Marine Biological Laboratory will discuss the results of a multi-year study identifying the nitrogen pollution sources of Edgartown Great Pond and Chilmark Pond. Finding the problem is the first step towards remediation. Please join us!

**10:30-11:30 am**  
**Friday, August 23<sup>rd</sup>, 2024**
